

**Steve Jameson**

Sarasota High School

Class of 1962

I retired in 2005 with 41 years at Honeywell as a Mechanical Design Engineer. Started with Honeywell in 1965.

Graduated from Phoenix Junior College and joined the Marines in 67, spent the year of 68 in Vietnam with the 2nd Battalion 5th Marines, you've seen us making that historical 30 day trip to Hue Vietnam during the 68 TET Offensive on TV.

Came back to the states and they sent me to Photo Interpreters School in Denver, got married in 70 and when I got out of the Marines in 71, had a chance to go to work for the CIA as a photo Interpreter, but my old job at Honeywell was where I decided to go. Learned upholstery and started my own upholstery business on the side and started back building hot cars with that money. I have two daughters Erin my oldest is a Phoenix Police Detective and my other daughter Kelley is a student nursing adviser at Grand Canyon College here in Phoenix.
